

Index to Volume 220

- Abou-Donia MB, *see* Gupta RP
 Abraham EC, *see* Shroff NP *et al*
 Assem M, *see* Laubriet A *et al*
 Athias P, *see* Laubriet A *et al*
 Aversa M, *see* Srivastava N *et al*
- Baños-Marhaber G, *see* Posadas-Sánchez R *et al*
 Bass JJ, *see* Jeanplong F *et al*
 Bastien P, *see* Debrabant A *et al*
 Beattie J, Phillips K, Borromeo V: Differential inhibition of recombinant bovine GH (rbGH) activity *in vitro* by *in vivo* enhancing monoclonal antibodies 103–108
 Bera S, *see* Shroff NP *et al*
 Bohlender J, *see* Hagemann D *et al*
 Borromeo V, *see* Beattie J *et al*
 Braun U, *see* Menin L *et al*
 Bresin A, Iacoangeli A, Risuleo G, Scarsella G: Ubiquitin dependent proteolysis is activated in apoptotic fibroblasts in culture 57–60
- Cardounel A, *see* Gursoy E *et al*
 Cherian-Shaw, *see* Shroff NP *et al*
 Chowdhury PR, *see* Srivastava N *et al*
 Conde RD, *see* Sanllorenti PM *et al*
 Cordelet C, *see* Laubriet A *et al*
- Debrabant A, Bastien P, Dwyer DM: A unique surface membrane anchored purine-salvage enzyme is conserved among a group of primitive eukaryotic human pathogens 109–116
 Dwyer DM, *see* Debrabant A *et al*
- Fantini E, *see* Laubriet A *et al*
 Ferrara P, *see* Sanllorenti PM *et al*
- Gross W, *see* Zhou Y *et al*
 Gupta RP, Abou-Donia MB: Enhanced activity and level of protein kinase A in the spinal cord supernatant of diisopropyl phosphorofluoridate (DFP)-treated hens. Distribution of protein kinases and phosphatases in spinal cord subcellular fractions 15–23
 Gursoy E, Cardounel A, Kalimi M: Heat shock preconditioning and pretreatment with glucocorticoid antagonist RU 486 protect rat myogenic cells H9c2 against glutamate-induced cell death 25–30
- Hagemann D, Bohlender J, Hoch B, Krause E-G, Karczewski P: Expression of Ca²⁺/calmodulin-dependent protein kinase II δ -subunit isoforms in rats with hypertensive cardiac hypertrophy 69–76
 Harshbarger CH, *see* Ziolo MT *et al*
 Hernández-Ono A, *see* Posadas-Sánchez R *et al*
 Ho JW, *see* Leung YK
 Hoch B, *see* Hagemann D *et al*
 Holmuhamedov EL, Ozcan C, Jahangir A, Terzic A: Restoration of Ca²⁺-inhibited oxidative phosphorylation in cardiac mitochondria by mitochondrial Ca²⁺ unloading 135–140
 Hong S-H, *see* Zhou Y *et al*
 Hurta RAR, *see* Yeung O
- Iacoangeli A, *see* Bresin A *et al*

- Jahangir A, *see* Holmuhamedov EL *et al*
- Jeanplong F, Sharma M, Somers WG, Bass JJ, Kambadur R: Genomic organization and neonatal expression of the bovine myostatin gene 31-37
- Kalimi M, *see* Gursoy E *et al*
- Kambadur R, *see* Jeanplong F *et al*
- Karczewski P, *see* Hagemann D *et al*
- Keriel C, *see* Menin L *et al*
- Ko K-M, Yiu H-Y: Schisandrin B modulates the ischemia-reperfusion induced changes in non-enzymatic antioxidant levels in isolated-perfused rat hearts 141-147
- Krause E-G, *see* Hagemann D *et al*
- Laubriet A, Fantini E, Assem M, Cordelet C, Teyssier J-R, Athias P, Rochette L: Changes in HSP70 and P53 expression are related to the pattern of electromechanical alterations in rat cardiomyocytes during simulated ischemia 77-86
- Leung YK, Ho JW: Purification and properties of ferrochelatase from Chironomidae larvae 161-167
- MacDonald MJ, Marshall LK: Survey of normal appearing mouse strain which lacks malic enzyme and NAD⁺-linked glycerol phosphate dehydrogenase: Normal pancreatic beta cell function, but abnormal metabolite pattern in skeletal muscle 117-125
- Marshall LK, *see* MacDonald MJ
- Medina Campos ON, *see* Posadas-Sánchez R *et al*
- Menin L, Panchickina M, Keriel C, Olivares J, Braun U, Seppet EK, Saks VA: Macrocompartmentation of total creatine in cardiomyocytes revisited 149-159
- Olivares J, *see* Menin L *et al*
- Ozcan C, *see* Holmuhamedov EL *et al*
- Pałka J, *see* Surazyński A *et al*
- Panchickina M, *see* Menin L *et al*
- Pedraza-Chaverri J, *see* Posadas-Sánchez R *et al*
- Phillips K, *see* Beattie J *et al*
- Posadas-Romero C, *see* Posadas-Sánchez R *et al*
- Posadas-Sánchez R, Posadas-Romero C, Zamora-González J, Hernández-Ono A, Baños-Marhaber G, Medina Campos ON, Pedraza-Chaverri J: LDL size and susceptibility to oxidation in experimental nephrosis 61-68
- Privalsky ML, *see* Zhou Y *et al*
- Risuleo G, *see* Bresin A *et al*
- Rochette L, *see* Laubriet A *et al*
- Ronchi VP, *see* Sanllorenti PM *et al*
- Rosenfeld J, *see* Sanllorenti PM *et al*
- Saks VA, *see* Menin L *et al*
- Sanllorenti PM, Rosenfeld J, Ronchi VP, Ferrara P, Conde RD: Two dimensional non equilibrium pH gel electrophoresis mapping of cytosolic protein changes caused by dietary protein depletion in mouse liver 49-56
- Scarsella G, *see* Bresin A *et al*
- Seppet EK, *see* Menin L *et al*
- Sharma M, *see* Jeanplong F *et al*
- Shroff NP, Bera S, Cherian-Shaw M, Abraham EC: Substituted hydrophobic and hydrophilic residues at methionine-68 influence the chaperone-like function of α B-crystallin 127-133
- Smith JM, *see* Ziolo MT *et al*
- Somers WG, *see* Jeanplong F *et al*
- Sondgeroth KL, *see* Ziolo MT *et al*
- Srivastava N, Chowdhury PR, Averna M, Srivastava RAK: Estrogen increases hepatic lipase levels in inbred strains of mice: A possible mechanism for estrogen-dependent lowering of high density lipoprotein 87-93
- Srivastava RAK, *see* Srivastava N *et al*
- Surazyński A, Pałka J, Wołczyński S: Phosphorylation of prolidase increases the enzyme activity 95-101

Terzic A, *see* Holmuhamedov EL *et al*

Teyssier J-R, *see* Laubriet A *et al*

Wahler GM, *see* Ziolo MT *et al*

Wołczyński S, *see* Surazyński A *et al*

Yeung O, Hurta RAR: Phorbol ester tumour promoter mediated altered expression and regulation of matrix metalloproteinase-2 in a H-ras transformed cell line capable of benign tumour formation

39-48

Yiu H-Y, *see* Ko K-M

Zamora-González J, *see* Posadas-Sánchez R *et al*

Zhou Y, Gross W, Hong S-H, Privalsky ML: The SMRT corepressor is a target of phosphorylation by protein kinase CK2 (casein kinase II)

1-13

Ziolo MT, Sondgeroth KL, Harshbarger CH, Smith JM, Wahler GM: Effects of arrhythmogenic lipid metabolites on the L-type calcium current of diabetic vs. non-diabetic rat hearts

169-175
